

## Harrier Reference

Version 1105

The purpose of this document is to consolidate a basic set of reference data about the Harrier, in particular, those operated by the UK. More detailed data is in the process of being collated for the creation of a document open to Harrier SIG members only.

The content of this document is as follows:

### **A - Variant: Years of Operation**

*A graphical view of the years of operation of each Harrier variant by service operator (RAF, RN, USMC, Indian Navy, Spanish Navy, Italian Navy and Thai Navy).*

### **B - Variant: Squadron Usage**

*A graphical view showing which variant was used by every squadron / unit for each service operator. No dates are provided against these.*

### **C - UK Harrier I**

*A listing of each first generation Harrier operated by the UK - e.g. GR1, GR3, T2, T4, T8, FRS1 and FA2. For each serial number, it shows the original and subsequent variant, first fly date, delivery date, conversion date (if applicable), exit date and current status.*

### **D - UK Harrier II**

*A listing of each second generation Harrier operated by the UK - e.g. GR5, GR7, GR9, T10 and T12. For each serial number, it shows the original and subsequent variant, first fly date, delivery date, conversion date (if applicable), exit date and current status.*

Please note the following:

1. The data has been taken from a variety of sources, not all of which have been in agreement.
2. As with all things Harrier, there's disagreement on some variant configurations that have made positive identification and clarification of these somewhat of a lottery.
3. Dates may not always match the reality of when the aircraft have been seen - e.g. delivery to storage rather than a squadron, conversions are typically completion dates, etc.

If you see obvious errors - or even non-obvious ones, please contact me so I can correct them. I have yet to see an up-to-date reference database for Harriers for this type of information, so it would be good to try and get this as accurate as possible, rather than replicate another incomplete and inaccurate attempt!

**AIRCRAFT TYPES**
